

## Quality, Health, Safety & Environmental Policy

At ACIERS COSTE, security, health of our employees, environment management and client's satisfaction are our first priority.

That's why ACIERS COSTE direction board is committed to maintain a continual improvement approach in his QHSE policy.

As General Manager of ACIERS COSTE, I therefore undertake to make all necessary human, organizational and technical means to allow:

- To meet client's requirements.
- Respect business, quality and environment laws and regulations.
- Reduce our environmental footprint, and increase prevention for solid, liquid or air pollution.
- Improve safety, health of the men and women that contribute to our activities, by encouraging a risk prevention culture at work.
- To implement awareness and prescribe training actions.
- Continuously identifying problems and completing corrective and preventive actions.

All those commitments shall be put into set objectives that will be developed by the management.

We commit ourselves to develop and keep an efficient managing system that will help reach our sets objectives.

To insure the success of our QHSE politic, all collaborators have to feel implicated in the process, I thank them all for their involvement.
